

What makes the RFM library so cool?

We have digitalized our reference section!

Now students can access reference materials from any device, anywhere using our GALE Digital Reference library. The library has purchased unique and interactive databases including GALE Biography in Context, Interactive Science, and Global Issues in context among others!

We have “genrefied” our fiction collection!

Research shows that circulation increases when fiction collections are organized by genre. Now students can simply go to their favorite section to locate a great new book rather than searching by author.

We have a special collection of graphic novels!

Learn about the Battle of Gettysburg, Greek and Roman mythology, or Native American folk tales in the form of an illustrated narrative!
